

Advances in memory processes in healthy and pathological ageing: spatial and semantic mechanisms

May 26th and 27th, 2022

Dipartimento di Psicologia, Sapienza Università di Roma

Via dei Marsi, 78, Rome

Aula 14

Google Meet link: <https://meet.google.com/xbo-zejx-eoh>

26th of May

TIME (GMT+1)

Title and presenter

14.00

Welcome, Introduction and Initial Remarks

14.15

Preservation of visual short-term memory mechanisms in healthy and pathological ageing: The role of naturalistic contexts

Moreno Coco

14.40

Semantic representation and control in healthy ageing: Evidence from concept typicality

Ana Luísa Raposo

15.05

Semantic relatedness effects in visual search

Giorgia D'Innocenzo

15.30

The impact of objects' semantic properties on their episodic recognition memory and underlying neural substrates

Emma Delhaye

15.55

Interaction of conceptual and perceptual effects on long-term visual memory of naturalistic scenes

Anastasija Mikhailova

Advances in memory processes in healthy and pathological ageing: spatial and semantic mechanism

27th of May

TIME (GMT+1)

Title and presenter

10.00

Welcome, Introduction and Initial Remarks

10.15

Developmental and acquired autobiographical memory deficit: insights for clinical settings

Matilde Conti

10.40

Incidental Emotional Learning and Memory for Object-Location

Beatrice Cianfanelli

11.05

BREAK

11.35

Attentional bias following implicit memory of spatial contingencies

Claudia Salera

12.00

Impact of Traumatic Brain Injury on different formats of topographical representation

Alessia Bonavita

12.25

Emotional components in learning topographic sequences

Laura Piccardi

12.50

Topographical disorientation: a history of neglect

Cecilia Guariglia

13.15

LUNCH

15.00

Round table discussion

16.00

Concluding remarks
